1. Same mobile number cannot be registered or use in more than one role.

2. Need of Bilingual (Hindi, English) features in the app for easy understanding of questionnaires text.

3. Zero value not allowed in many cases like in Gujarat State, most of the villages had built HHs level soak pits and few villages had built the community soak pits without the drainage system. Zero (0) value in this field not accepted by the app.

4. Increase the number of community assets for SLWM entry also up to 50 per village.
Features List which include in new build version 2.4

- Now Same mobile number can be registered or use in more than one role.
- Bilingual (Hindi and English) translation of labels are added through toggle functionality.
- Zero (0) value allows in any component abstract value.
- Max value allows for the following components
  - Community Compost Pits – 50
  - Community Bio Gas plants – under other schemes – 50
  - Vehicles for collection & transportation of waste – 99
  - Community Soak Pits/Leach Pits/Magic Pits – 50
Notification Features

- **Advance Notification**
  - This feature is used to prompt a message to the users that a new build is available by adding more features/functionality, kindly update your app till <tentative date>, after that this existing version of app is no more functional.

- **Forcefully App Updating**
  - Forcefully we insist the users that this build/version is obsolete and no more functional now. Kindly download, install, and use the latest version of app.
## Notification Features

<tbody>
<tr>
<td><strong>Alert</strong></td>
<td><strong>Alert</strong></td>
</tr>
<tr>
<td>Please upload all your pending work from this app version, as this version will not be functional after 11 July 2020</td>
<td>It seems that you are using older version of ODF Plus App. Uninstall the previous/current version and get the latest version of app from <a href="https://sbm.gov.in/odfplus">https://sbm.gov.in/odfplus</a></td>
</tr>
</tbody>
</table>
CSC Module – Current workflow

1. Enter Physical Progress using Module [C10]
2. Only approved physical progress reported CSCs are geo-tagged using ODF Plus Baseline App
3. Enter Financial Progress using Module [C10]

- In this scenario there is a gap in between physical progress and geo tagging which increase instantly day by day
Proposed CSC workflow

1. Enter Physical Progress along with Geo tagging at one go using MIS – Phase II App

2. Enter Financial Progress using Module [C 10]
